November 2020

Dear Friends,

**With donations from folks like you, we were able to help our neighbors in need all through this pandemic!** Our patients have been impacted by economic instability, surging unemployment, and loss of medical insurance coverage. The Geneseo Parish Outreach Center, Inc., provides health care, health education, disease prevention, and advocacy for people who are underinsured or have no insurance.

Without needed prescription medications, like high cost insulins and injectables for diabetic patients, and inhaled medications for those suffering from asthma and COPD, many would experience medical crises and avoidable ED visits and hospitalizations.

Our patients are hurting, but are so grateful for our help. They wish to thank you, too.

*“I could never tell you in any words, how much I truly appreciate everything you have done... This program does wonderful things for people that don't have the money to do it for themselves. Thank you, thank you, thank you is all I can really say!” JT*

- Our Prescription Assistance Costs have more than **tripled** this year
- Diagnostic Lab Tests Costs have **increased by 172%**

*“Thank you so very much for your help ... when I was between jobs and health insurance coverage. You were a blessing in my time of need, and I sincerely appreciate all you do for others!” NS*

Even during these challenging times, The Parish Outreach Center has accomplished the following:

- Maintained an **all-volunteer** staff that is projected to log over 4,000 hours of service by the end of the year
- Acquired the services of **three new volunteer medical providers** to staff our clinics
- Provided **364 families** with groceries, hygiene items and paper products through our **Emergency Foodlink Pantry**

Without the support of donors like you, we could not have helped so many.

**This Institution is an Equal Opportunity Provider**

*“Thank you so much for your medical ministry. Your loving care and concern for others is evident! You have blessed our family so much this summer. The physicals they received and the dental visits you financed for us were such an answer to prayer! Thank you for blessing our lives with this amazing ministry.” CF*

For over 16 years, the Geneseo Parish Outreach Center, Inc., volunteer staff has played a vital role as a health care provider for low-income individuals and those living in poverty. Visit our website to learn some key components of our work for those who have little or no control over their health care options.

As the holidays draw near, we are hoping you will feel inspired to make a tax-deductible contribution to help us continue our work. Because this work is carried out through the efforts of an all-volunteer staff, **89 cents of every dollar donated** is used **directly** for patient care.

Use the form below to give the gift of health to neighbors in need.

Thank you for your time and consideration.

Sincerely,

Paul Frame, MD.  
Medical Director

Donna Flaherty, PA C  
Executive Director

Diana Harke  
Board President
